Sleeping Alone. It is very much healthier to sleep alone The unhealthfulness of two persons occupying the same bed very much depends on the physical condition of either or both.

If one is diseased, injury to the other is sure to result. The practice is unhealthful because the exhalations from the body of one come in contact with and are absorbed by the skin of the other, and because each one must, of necessity, breathe ome of the air which has been breathed by the other, and consequently rendered impure.—Herald of Health. the FINEST and CLEANEST in the City.

The Makers of a Well Known Churn write

"We have been often asked by dairymen: What is the very pest soap to use to properly cleanse dairy utensils? We have invariably replied, the 'Ivory,' but as for giving specific directions for washing dairy utensils, it is really summed up in making them thoroughly clean. Boiling water must be used, and that, in connection with Ivory Soar, will thoroughly cleanse and deodorize the wood, leaving it clean and sweet for further use. Any dairy utensils half cleaned will spoil the delicate aroma of 'gilt edge butter,' which may be perfect in other respects.

### A WORD OF WARNING

There are many white soars, each represented to be ' just as good as the 'tvory';" they ARE NOT, but like all counterfeits, lack the peculiar and remarkable qualities of the genuine. Ask for "Ivory" Soap and insist upon getting it.
